Dear Phil,

The Board of Directors of Pacific IPA has unanimously voted to inform Providence of their concern regarding the decision to exclude Epic Imaging and Body Imaging from all Providence Health System panels. We believe it is in the best interest of patients and referring physicians to have a choice in regard to radiology services.

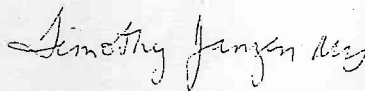

Pacific IPA represents 82 primary care physicians and approximately 20 specialty physicians from Northwest Primary Care Group, Oregon Primary Care Physicians and The Portland Clinic. Most of the physicians from these organizations use Epic Imaging and/or Body Imaging. Both of these radiology groups have provided excellent care to our patients over the past 15 years as indicated by the number of referrals which are sent regularly to both facilities.

We ask that you reevaluate your position on this issue and thank you in advance for considering our request.

Sincerely,

Jeffrey Cleven, MD
Pacific IPA Chairman
The Portland Clinic
